VC Production with QC, Plant Maintenance & Job work

- Developed for both discrete as well as process manufacturing
- Sub-modules are shaft floor or process entries for discrete and process industries respectively
- Other Sub-modules are QC, Job Work and Machine Centre
- Modular development so that all or some of sub-modules can be used
- Integrated with MRP module of SAP to capture material requirement
- Integrated with Production module of SAP to enable features of core software
- Works well in Industries such as Engineering, Automobile, Chemical, Pharmaceutical, oil & refinery, Infrastructure, Casting & Forging etc.
- Helpful in predicting Estimated Cost of Production as well as Actual Cost of Production

VC Payroll

- Indianized payroll options with ESIC, PF, Gratuity, Salary, Employee Self Service & Managerial Self Service Views
- Pay Configuration & Constructions
- Reports

VC Capital Assets

- Group Book Mapping
- Master Management for Assets
- Asset Transfer & Retirement
- Depreciation
- Book Maintenance
- Financial Ledger

VC Mobi Alert

- Alerts on important information as well as on important events can be sent to SAP B1 users via mobile devices
- Enables the users to receive information from SAP system even when they have no access to it.
- All alerts generated in the system can be sent as SMSs.
- The frequency of Alert Execution to send the SMSs can be set as per the requirement.
- One can send same SMS alert to more than one user at a time.
- The alerts are predefined for different department users and management.
- Works on all SMS Gateways which provide the SMS service URL to send the SMS.
- SMS delivered or not, status is managed.
